CITY COUNCIL.

TUESDAY EVENING, Nov. 23th, 58. His Honor the Mayor in the Chair. Present, Messra Coffinbery, Thayer, Crawford, Winslow, Bansom, Herrick, Thompson, Rider, Senter, Weber, Detmer, Oviatt, Hopkinson, Marters.

Minutes of last meeting read and approved.

Minutes of last meeting read and approved.

PRITITIONS.

Of Selah Chamberlin and others, stating that they presented the grounds for the new Central Market House, and reviewing the various discussions and disputes on the market questions, and asking that the Council take such steps as should fulfil the arrangements with these which were expected when the transfer was made, or that they be remunerated for their trouble and expense. Referred to the Judiciary Committee.

REPORTS.

RESULUTIONS.

By Mr. Rider, that the pelition of Edward Kingsley and others to form a new Fire Company, he granted and that they be allowed to use the engine used by the late company No. 6, and that the company be called "Empire Company."

Mr. Thayer offered as an amendment, that Mr. Rider's resolution and all papers connected with the matters, he referred to Chief Engineer Hill, with instructions to report as to whether a new Fire company is needed and whether Fire company No. 5 cannot, by chaoging their location, provide for the wants of all in the vicinity of the proprosed new company. Adopted.

new company. Adopted.

By Mr. Rider, that the Board of City Improvement proceed, as soon as practicable, to grade and improve Water street. Adopted. improve Water street. Adopted.

By Mr. Thaver, that the Board of City Improvement be requested to report to the Council what plan can be adopted for the draining of Euclid street from Superior street to Perry street, and the probable cost of the same. Adopted.

By Mr. Thayer, that the Board of City Improvement be authorized to make such repairs as may be necessary to drain off its water east of Perry street, and conduct the same to the Sterling Avenne sewer. Adopted.

ewer. Adopted.

By Mr. Senter, that the Board of Education be atructed to examine and report as to the condi-on of the furnaces in the city school houses.

tion of the furnaces in the city school houses.—Adopted.

By Mr. McLane, That, whereas, the market teams still congregate on Outario street so as to obstruct and blockade the street; therefore, Resolved, That it shall be unlawful for any market teams to congregate or to stand for purposes of sale upon any street, lane or alley within the city limits, in a greater number than ten on any one street, and no teams shall remain in one place for the purpose of selling market produce for a longer time than half an hour.

Mr. Heirick opposed the resolution, as the public are now accommodated better than they will be under any other arrangement. The police had now the power to prevent any obstruction of the street, and if two policemen are daily stationed upon the Market grounds, no difficulty will be experienced.

LAST NIGHT'S REPORT.

GOVERNORS MESSAGE. CHARLESTON, Nov 23. The Message of Gov. Alston to the Legislature of S. C. was delivered to-day. The message is conservative in tone and concise and well written. It calls the attention of the Legislature to the du-ty of electing a U. S. Senator in the place of Senator Evans; refers in tones of congratulation to the progress of the railroads and other internal improvements of the State; recommends the in-

vostment of southern capital more in southern im-provements and less in northern socurities; refers in terms of disapproval to incendiary resolutions against slavery by free State Legislatures, declar-ing such resolutions undeserving of a response, and exhorting the State to caltivate moral, virtuous industry, domestic habits, and to observe scrupulously all the federal obligations.

He then refers to the recent slavery cases as presenting in strong relief the devotion to law and order of the people of South Carolina; but expresses regret at their occurrence as productive of unwonted excitement.

He constitues the propriety of interfering with

of unwonted excitement.

He questions the propriety of interfering with
the commerce of the inhabitants of Cuba, and
expresses the helief that while the navy of the U.
S. may, under the Constitution, be charged with
preventing the slave trade between the coast of
Africa and our own shores, it is policy to let foreign nations regulate their own affairs and enforce
their own police.

their own policy.

The remainder of the message is confined to State policy, recommending among other things a repeal of she usury laws.

Solk PROPRIETORS.

FROM PHILADELPHIA. PHILADELPHIA, Nov. 23. This morning in the Circuit Court of the U. S. for the Eastern District of Pennsylvania, his honor, R. C. Grier, granted the injunction at the suit of Horace H. Day, and also against the five following parties, to wit:—Meyers, Cleghorn & Co.; Z. C. G. Godfrey & Co.; Simon Silizerman, Shadrack Hill & Ashly, and Strange, restraining each of them from the further making or causing to be wade or raise or causing to be wade or raise.

in Nerthern 4, The evenness of the vibration of the string. 2. Greater apare between the atrings in the appropriate cross The manner of stupping the abranian of the string.
 The evenues of the effection of the string.
 The quality of the tone.

5. The savength of the tame,
6. The savength of string.
7. The great bength of time which the instrument remains in time.
7. The year bength of time which the instrument remains in time.
7. That the public may see and judges for themselven whether.
10. The above statement be true, I publish as disagram of the old and see styles of pianos, or rather the out fags style, which rajects all modern improvements, sain the Hallet, There's Che's arghe which accepts the doctrine that we save living in an age of improvement, and that much not old fugines will dany that twice two qual four; and that 100 line, weigh twice as much as fifty nounds. pounds.

I will illustrate the philosophy of the two kinds of instru-ments, and leave the reader to draw his two monts, and leave the reader to draw his own conclusions.

1. The Hallet, Danis & Co. Pianos have a greater

tength of string than those of any other make in the same sized case. The truth of this statement may be seen at a glance, so nearly the entire length of a straight string can be used for through, see diagram; while those that are bent, necessarily have he rest or winder pin innerted at a great distance from the ent of the plane; else the sogle would be so great the string would may in twen helors it could be drawn up within an octave of concert pitch. This is the result of the fourth feature; It being a universall conceded fact that all 1 ms is produced by silvution, and the flexuses if cubes five, the enter the tent.

> 2. The Hallet, Davis & Co. Pianor have a mider space between the strings than those of any other

7. The great length of time which the instrument re3. The manner of stopping the vibration mains in time.

The vibration of the vibration is the vibration. This is the result of the 6th leature, instanuch as a string flatter by stricking. And it will result be seen that if a string four feet in length bears a strain of the string in all planes, commences where the homes are string four feet in length bears a strain of the homes and the life of the best visible in the world can be relied by in all parts, it will not flatten more thank I was quick as hat of a string bearing the same strain. The truth and philisopoly of the foregoing facts are so string ing and fortble, that the questier is often wheel, will get and fortble, that the questier is often wheel, with the questier is often wheel, and the relied of the bear of the string in the proving that the tone of a string lead of the string in the life of the bear of the string in the proving that the tone of a string lead of the string in the life of the bear of the string in the leading a poor bridge; thus proving that the tone of a string in the proving that the tone of a string of the string. In all planes, where it is stopped to the string in the string in the proving that the tone of a string of the string. In all planes, commences where the homes are like it, mear the heige, where it is atopped (more discussed in the string in the proving that the tone of a string in the proving that the tone of a string is the proving that the tone of a string in the proving in the string in the proving in the string is stopped with little beautiful the of copper or bell metal (see all other planes in a string in the proving in the string in the proving in the string is stopped with little beautiful the of copper or bell metal (see all other planes in the string in the proving in the string is stopped with little beautiful the of copper or bell metal (see all other planes in all other planes in the string is stopped by upright in the proving in the string is stopped with the late of the beautiful the string is stopped with little beautiful the of copper or bell metal (see all other planes in the string is stopped with little
